

Press release – 28th June 2011

CornerTape SiliconePro now available in stores nationwide

The brand new CornerTape SiliconePro Kitchen & Bathroom Sealant is now available to purchase from trade and DIY outlets throughout the UK.

Easily identified with its distinctive black tube and multi-coloured nozzle, CornerTape SiliconePro is a durable and versatile silicone sealant available in a choice of four colours – white, translucent, cream and grey – and introduces the World's first Anti Drip Valve and Pre-Cut Nozzle System, designed by CornerTape for easy use, to prevent waste and save mess.

The Anti Drip Valve is conveniently positioned on the front of the tube – one simple quarter turn of the valve cuts the flow of sealant, preventing the traditionally inevitable overspill.

The Pre Cut Nozzle System comes in four sections, each of which unscrews, and a lid. Each nozzle is cut at an angle of 45° for more control and a better finish and corresponds with the widths of CornerTape itself for the most appropriately sized bead of sealant. The Pre Cut Nozzle System can be used over and over again, the cured sealant easily cleared by simply unscrewing the nozzles – no more prodding and poking at hard sealant and no need to purchase new nozzles.

Inside the tube, CornerTape SiliconePro is ready to use and suitable for a wide range of trade and DIY applications. SiliconePro is Anti-Mould; resistant to mildew, water and moisture as well as colour fade and is UV and weather resistant, making it ideal for both indoor and outdoor projects such as sealing building joints, sanitary joints in bathrooms and kitchens, windows and door frames and for use on caravans. With its high elasticity rate, SiliconePro is ideal for applications where movement in the joint is expected and will perform in extreme temperatures, from -50°C to 120°C.

SiliconePro is the latest addition to the CornerTape product range, perfectly complementing the selection of tools, wipes, CornerTape and now also the bundled SiliconeKit from the award-winning, original and best sealant-taming brand.

For further information, contact CornerTape on 01754 896990 or visit www.cornertape.co.uk. A video demonstration of the CornerTape product system can be found online, at YouTube and at www.cornertape.co.uk.

Users in the UK comment on CornerTape:

"I used the tape yesterday, and it was the best silicone run I've ever done! Everyone noticed – it was such a tidy job, no-one could say anything but praise for the tape and now they all want some! Of all the tools and accessories I've tried over the years, nothing beats CornerTape for actually doing what it's described to do. The company I work with is interested in using the product too."

- Neil Walters, kitchen fitter in Pembrokeshire, Wales

"The ideal opportunity came to try my CornerTape in the refurbishment of a new head office reception area involving some 60sqm of Clip-n-Fit pre-grouted porcelain floor tiles. One of my wood floor installers, who also specialises in the fitting of Clip-n-Fit tiles and is particularly proficient with the skeleton gun, used the CornerTape and his reaction was genuinely enthusiastic. He said the job, particularly on the long runs, was so much easier, quicker and the result was more even ie. better than can be achieved generally by the 'wet finger' method used by so many. Texfield will henceforth be using CornerTape on all types of flooring."

- Malcolm Wingrove, Texfield Services Ltd, flooring contractors, London

"We use CornerTape on all of our buildings, to create a perfectly-finished seal in the internal corners. Our buildings are used as offices, studios, pool and spa rooms, media, hobbies and day rooms, every one finished to the highest achievable standard. The outside is lovely Cedar wood but we were struggling when it came to establishing an equally professional finish in the internal corners of our buildings. We have been using CornerTape for about a year now – it keeps sealant where it's supposed to be and leaves a perfectly straight fine line with a top quality finish. Everyone notices and asks how we do it!

- Paul Raven, Inhus garden buildings, Suffolk (www.inhus.com)
