

Press release – 10<sup>th</sup> November 2011

## CornerTape SiliconePro marks introduction of sealant to CORGdirect

The latest products from the award-winning sealant-taming brand, CornerTape, are now available from CORGdirect - the trusted supplier of essential gas-related product and services.

The recently-launched SiliconeKit bundles together a range of CornerTape products as a complete toolbox for the removal, preparation and replacement of silicone joints in bathrooms and kitchens and contains a Silicone Remover Tool for sensitive surfaces along with a Silicone & Grout Remover Tool, a Residue Remover Brush, four dedicated Preparation Wipes, a roll of CornerTape for joints 6mm wide and a Silicone Forming Kit as well as an instruction DVD.

And CornerTape SiliconePro – the first ever silicone sealant available from CORGdirect – introduces the world's first Anti-Drip Valve and Pre-Cut Nozzle System. Available in four colours, SiliconePro is Anti-Mould and resistant to water, moisture, colour fade and UV making it ideal for indoor and outdoor use. With its high elasticity rate and tensile strength, it is suitable for joints where movement is expected and it will perform in extreme temperatures, from -50°C to +120°C.

Designed for easy use, to prevent waste and save mess, a quarter turn of the Anti-Drip Valve cuts the flow of sealant and the Pre-Cut Nozzle System, which can be re-used, comes in four sections for different bead sizes, each of which unscrews and is pre-cut at 45° for greater control.

CORGdirect has supported the professional tradesman for the past eight years, providing an easy way to buy essential products and services and to help its customers work safely and competently while presenting a professional image.

The CornerTape products – SiliconePro at £4.00 per tube and the complete SiliconeKit at £9.99 - were introduced into the October edition of the CORGdirect catalogue with prominent positions on the front and back covers, and appear in the 'New Products' page on the inside back cover of the November issue.

CORGI*direct* is a licensed supplier of Gas Safe branded goods and provides easy ordering from a huge choice of the latest products with guaranteed quality, a 28 day money-back guarantee, free delivery on orders over £35 and same day despatch on all stock items ordered before 4pm.

**Users in the UK, comment on CornerTape:**

"I used the tape yesterday, and it was the best silicone run I've ever done! Everyone noticed – it was such a tidy job, no-one could say anything but praise for the tape and now they all want some! Of all the tools and accessories I've tried over the years, nothing beats CornerTape for actually doing what it's described to do. The company I work with is interested in using the product too."

*Neil Walters, kitchen fitter in Pembrokeshire, Wales*

"The ideal opportunity came to try my CornerTape in the refurbishment of a new head office reception area involving some 60sqm of Clip-n-Fit pre-grouted porcelain floor tiles. One of my wood floor installers, who also specialises in the fitting of Clip-n-Fit tiles and is particularly proficient with the skeleton gun, used the CornerTape and his reaction was genuinely enthusiastic. He said the job, particularly on the long runs, was so much easier, quicker and the result was more even ie. better than can be achieved generally by the 'wet finger' method used by so many. Texfield will henceforth be using CornerTape on all types of flooring."

*Malcolm Wingrove, Texfield Services Ltd, flooring contractors, London*

"We use CornerTape on all of our buildings, to create a perfectly-finished seal in the internal corners. Our buildings are used as offices, studios, pool and spa rooms, media, hobbies and day rooms, every one finished to the highest achievable standard. The outside is lovely Cedar wood but we were struggling when it came to establishing an equally professional finish in the internal corners of our buildings. We have been using CornerTape for about a year now – it keeps sealant where it's supposed to be and leaves a perfectly straight fine line with a top quality finish. Everyone notices and asks how we do it!

*Paul Raven, Inhus garden buildings, Suffolk ([www.inhus.com](http://www.inhus.com))*
