

Moor2Coast agent recognised as a property professional of excellence!

Janice Stacey, negotiator at Moor2Coast, team estate agent in Yelverton, has successfully passed an NFoPP (National Federation of Property Professionals) Technical Award in the Sale of Residential Property.

This well-respected Award is not only a nationally-recognised industry qualification but is also an entry requirement of the NAEA (National Association of Estate Agents) – the UK's leading professional body for estate agents which regulates, guides and assists property sales professionals.

Janice, who is Devon born and bred, has a sales background and has been working in residential sales and lettings in South Devon for the last four years, said: "Just before 2011, I set myself a New Year's resolution to become qualified this year. I'm thrilled that the hard work has paid off and I've completed the Award in six months. I thoroughly enjoyed the studying, but it's not just a personal achievement; it's also evidence of Moor2Coast's professionalism as an agency, showing our clients that they are dealing with someone who is knowledgeable and who they can trust to do a good job."

Maureen Mcwattie, director of Moor2Coast, said: "We are really proud of Janice's achievement. We strongly believe that vendors and buyers in Yelverton and the surrounding areas will vote with their feet in support of an agency that is staffed by hard-working property professionals of intelligence and integrity, like Janice."

Moor2Coast is among the steadily growing number of agents across the UK who are working with the NAEA and the NFoPP to become qualified and raise standards within their field.

Elizabeth Richards, head of legal and policy at the NFoPP, states: "I heartily congratulate Janice on her achievement and am pleased to welcome her to NAEA membership. In an industry where standards can vary greatly between member and non-member agents and agencies, obtaining this

Award represents not only Janice's dedication to developing as an agent but also her commitment to working to the high industry standards that the NAEA seeks to promote."
