

Press release – 24th May 2010

Tile Depot makes it easy to seal with CornerTape

Tile Depot, the UK's largest independent tile and stone retailer with its striking green and yellow logo, now stocks the award-winning CornerTape range of products - compatible with all types of [kitchen and bathroom tiles](#) for a perfect bead of sealant every time.

Now available from all 14 Tile Depot stores in London and the South East, [CornerTape](#) is a product system, which guarantees easy and effective preparation as well as a simple, accurate and fast method of 'masking up' before applying all types of sealant to tiles, baths, showers and worktops, for a perfectly straight, beautiful finish and without the normal mess and stress of traditional methods like the old 'wet finger and spit' system we have all used without success in the past.

Complementary to Tile Depot's massive range of wall and [floor tiles in ceramic, porcelain and natural stone](#), the CornerTape system contains a choice of Silicone Remover Tools to easily remove stubborn old silicone; CornerTape Preparation Wipes to kill bacteria and ensure a decent surface for the new sealant to stick to; and rolls of CornerTape in a range of sizes, as a dedicated 'masking tape' for sealant.

Available from Tile Depot in four different widths in rolls of 5m and 15m in length, CornerTape saves time, creating a much easier, cleaner way of applying sealant with two 'sides' of the tape keeping the sealant neat and tidy for a perfectly parallel, symmetrical bead of sealant as a result. When the tape is pulled away, the sealant does not come with it, and there are no feathered edges or ridges in the new sealant – and no skill or experience is required.

Each Tile Depot store has a floor standing CornerTape display installed, complete with TV screen and video demonstrating how simple and effective the system is. Although very simple to use, CornerTape is a very sophisticated product so Tile Depot is giving away free DVDs to customers for future reference, showing the product in action around tiled worktops, wetrooms and baths. There are only a few steps in applying CornerTape and the results are truly outstanding, with a finish any professional would be pleased to put their name to, but without the cost.

CornerTape products will soon also be available to buy online at www.thetiledepot.co.uk, along with [Tile Depot's huge range of wall tiles](#) and floor tiles, wooden flooring, under floor heating, adhesives, grouts, tools and accessories. For further information, pop into your nearest Tile Depot store, call 08000 740720 or visit www.thetiledepot.co.uk.
